

-  **Terminal blocks, power supplies, signal conditioners, distributed I/O, sensor cables, wire duct, HMI, panel PC's, PLC's, wireless datacom**
-  **Motor controls, sensors, pushbuttons, safety switches, VFD's, servo motors/drives, HMI's, PLC's, robots**
-  **Multi-conductor high flex cable, CE, HAR, UL rated, strain relief fittings, back panel wiring systems, power supplies**
-  **EMI/RFI/harmonic filters, line reactors, surge arresters, voltage stabilizers., on-Site CE certification/consulting**
-  **Stepper motors/controls, linear actuators, integrated stepper motors**
-  **Heavy-duty, multi-pin industrial connectors and accessories, field attachable sensor bus connectors**
-  **Electrical components and systems to terminate, connect, fasten, protect, and identify wires, components, conduit**
-  **Visual lighting and audible alarm signaling devices, LED stackable lights, rotary beacons, horns and buzzers**
-  **General purpose and medium voltage fuses, fuse holders, power distribution blocks, surge protection devices**
-  **Surecross wireless radios, modbus serial, ethernet, and ethernet IP gateways**
-  **Rotary incremental and absolute encoders, shaft, hollow-bore, thru-bore, linear cable and stainless steel versions**
-  **Temperature sensors: thermocouples, RTD's, wire and accessories**
-  **Electrical and electronic enclosure systems. Steel, stainless steel, aluminum, non-metallic**
-  **Thermoplastic enclosures for protecting electrical and electronic compenents in hostile environments**
-  **Motor controls, molded case breakers, disconnect switches, DIN mount mini circuit breakers, soft starters, PVC Wire duct**
-  **Flexible conduit/fittings, cable entry/holding systems, wire marking/labeling, robotic cable management, cable drag chain**
-  **Electrical/electronic enclosure systems, steel, stainless, aluminum, fiberglass, PVC, climate control products**
-  **AC digital servos, motions controllers, VFD's - UniDrive M open/closed loop vector, servo, general purpose, DC drives**
-  **Machine safety components. Safety controllers, relays, sensors, switches, locks, pilot devices, mats, fencing, light curtains**
-  **PLC's, AC digital servos, HMI's, motion controllers, photoelectric and proximity sensors**
-  **Sensing products, photoelectrics, inductive and capacitive proximity switches, ultrasonics, lasers and encoders**
-  **Low, medium and high-precision planetary NEMA frame servo gearheads**
-  **Fiberglass molded enclosures, NEMA 4X, wall mount, JIC, screw and hinged cover**
-  **VFD's, motion control, PLC's, HMI's, power supplies, temperature controllers, timers/counters, power meters**
-  **Transformers. Dry type control, low/medium voltage, and specialty**
-  **Fractional Horsepower AC/DC motors/gearmotors, brushless DC, motion controls**
-  **Planetary gearboxes, Economy/Precision/High Performance, custom gearboxes**
-  **Enclosures. Electrical and electronic. Steel, stainless steel. Climate control, pendant arm systems**

Value Added Services

Integrated Automation Solutions (Division of IAS) was born as a direct result of our customers needs. Our goal is to provide innovative solutions in partnership with the industries most established brands. From assisting with product design and installation of systems to a host of value-added services, the team at IAS is committed to helping our customers meet their production needs in a transaction that is seamless.

- Turn Key Control Panels
- Machine Safeguarding
- In-house technical support for products
- DIN-Rail Cutting
- Custom Terminal Block Marking
- CE Testing & Compliance
- UL 508A Certification
- Custom DIN-Rail Assemblies
- Kitting/Pre-packaging
- Custom Wire Marker Printing
